ISOFRAME® WAVE

SHAPE YOUR DISPLAY AS DESIRED

These are alternative ISOframe Wave layouts showing different shapes of a 6-section display wall.
The world´s first fully flexible display & exhibition system.

GENERAL INFORMATION

- Standard width for all single sided modules are 80 cm (except Graphic wings).

- Standard heights for all modules are 227 cm (Midi) and 247 cm (Maxi). Towers 277 and 297 cm.

- All modules are for single sided graphics use if not otherwise indicated.

- All modules apart from the Wave Flexi-Link modules contain fixed horizontal beams.

- All modules include "Kickers & Hangers". Magnetic tape for the graphic panels are not included.

- A "Starter module ⓢ" has 2 vertical posts/feet, an "Extension module ⓔ" has 1 vertical post/foot.

- Each ISOframe wall should include 1 "Starter module" only and the desired number of "Extension modules"

The ISOframe exhibit modules presented here are easy to assemble. However, as a guideline we have divided the different modules and stand designs into three "assembly levels":

① LEVEL 1 – NOVICE
Basic exhibit modules. Easily self-built from assembly instructions.

② LEVEL 2 – INTERMEDIATE
More advanced exhibit modules. Prior assembly/product training recommended

③ LEVEL 3 – ADVANCED
Custom designed stands and special solutions. Contact us!

FLEXI-LINK MODULES ①

The patented Wave Flexi-Link can flex 180 degrees each way in the horizontal position, yet the structure remains unbelievably strong and stable.

Flexi-Link module ⓢ

Midi IS-9457-1 | Maxi IS-9457-2

DOOR MODULES 👥2

Door module - straight, type A Ⓢ
Midi **IS-9417-1** | Maxi **IS-9417-2**

Door module - straight, type B Ⓢ
Midi **IS-9456-1** | Maxi **IS-9456-2**

Door module - curved 30°, type A Ⓢ
Midi **IS-9418-1** | Maxi **IS-9418-2**

Type A

Type B

Choose between doors of Type A and Type B depending on the angle in which the door is connected to the wall. Type B is connected on one side in 90 degree inner angle to the wall.

Doors require an extra stable display configuration for proper funtionality. We recommend adding a "Door stabilizing kit" for Type A doors.
Item IS-9319

STORAGE ROOM MODULES 👥2

The storage rooms are built up with front walls only. In case you want a fully closed room with back walls (= four walls) contact us.

Front storage room 160 x 160 cm Ⓢ
Midi **IS-9424-1** | Maxi **IS-9424-2**

ISOFRAME COMPACT

This ISOframe Exhibit Wall is ideal for more permanent set-ups in receptions, entrance halls, showrooms etc. It is sufficiently strong to accept multiple accessories such as LCD screens, iPad holders, leaflets holders etc. The backwall can be extended or reduced in size to suit individual sites and needs.

ISOframe incorporates our patented FASTclamp connector to connect the posts, beams and end sections of the system instantly, without tools.

A modular system with design and stability in focus!

Design: Curved
Size: 240 (w) x 227 (h) cm

Exhibit Compact Wall **IS-9580-1**

ALUMINIUM SLATWALL SYSTEM

The aluminium slatwall profiles are slotted into the regular ISOframe posts and fit all 800 mm wide modules. Each slatwall panel has 3 slots for holding one pair of shelf brackets. Add as many slatwall profiles on top of each other as desired and add corner trims accordingly. Attach a straight beam, item IS-800-BS, over and under the slatwall profiles to hold them in place. For stability reasons use slatwall panels together with "Table modules" and "Showcase modules" only.

ISOFRAME® FABRIC

EASY ASSEMBLY

Each frame corner is joined with 4 FastClamps

Each length is joined with 1 Fast Clamp

The feet have twist-in connectors

The twist lock connectors make it fast to built up

Easy mount the fabric panel with the PVC edge strip

STANDARD FRAMES

The kits include aluminium profile lengths, which are joined together with our unique FASTclamp connector to build the frame. The profile lengths in our standard frame kits are available in 27, 47 and 100 cm for maximum transportability. No screws or tools are needed to assemble the frame.

Vertical and horizontal support posts are included. One foot support, item IS-9058, for each base length is included. Add corner profiles, door and more stable feet if desired.

Frames can be used both single- and double sided.

CUSTOMISED FRAMES

Fabric frames can be produced in special sizes to order.

See our price list or contact us for more informaton!

COMPLETE TRADE SHOW STANDS

Here are some examples of self-build exhibition stands with the ISO–frame Fabric system. Different floor areas and with one or two sides open. The screw connector, item IS-9613, has been used for connecting the frames and the stands are meant to be used with single-sided graphics. The header frame is connected with 90° corner posts, for double sided graphics. Add spotlights, media screens, literature holders, transport bags etc. Contact us if you need any help and more ideas on how to design your new Fabric stand.

ISOFRAME® RIPPLE

SHAPE YOUR DISPLAY AS DESIRED

These are alternative ISOframe Ripple layouts showing different shapes of a 9-section display wall.
The Ripple wall can be flexed into almost any shape and gives you maximum flexibility to suit your needs.
Add or remove panels as desired.

GENERAL INFORMATION

- Standard width for each section/graphic is 80 cm.
- A display wall consists of banner stands and flexible link graphics.
- Every second section is a straight banner stand and every second section is a flexible link graphic.
- Each display wall consists of an odd number of sections: 1,3,5,7,9 etc.
- Standard heights are 210 cm and 227 cm.
- All modules are for single sided use.
- All modules include "Kickers & Hangers". Magnetic tape for the graphic panels is not included.

ISOBAR™

The Mark Bric ISOframe program includes a modular system of large reception counters, which can be individually designed to fit any reception area or trade show stand. Choose one of our complete counter units – straight or curved - with wooden top and inner shelves in grey finish, or customize your counter by combining different counter sections into a unique shape. All of our reception counters offer a stylish solution at a reasonable price, with no compromise on quality.
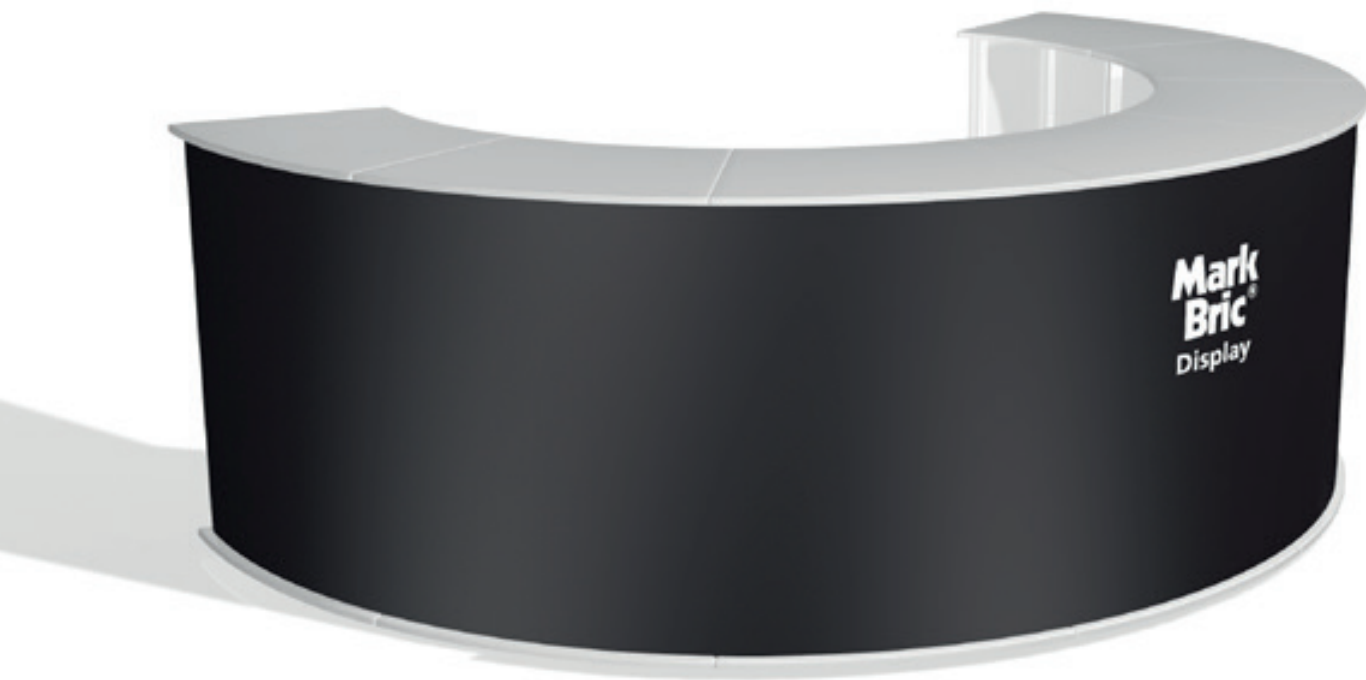

STANDARD COUNTER UNITS

Complete with framework, wooden top, base and one inner shelf per section.
Add magnetic tape for graphic panels.

3-section straight desk
Size: 240 x 54 x 105 cm

4-section 30° curved desk
Size: 276 x 106 x 105 cm

3-section corner desk
Size: 134 x 134 x 105 cm

USE CARDBOARD BOX FOR TRANSPORT

All ISObar modules (vertical posts and wooden shelving) are delivered in our shock-proof and re-usable cardboard boxes.

We recommend you to always transport the counters in these boxes. Use the Graphic tubes for the rollable printed panels.

Fabric bag for the vertical posts. Included in the cardboard box.

ISOFRAME COUNTERS

Elegant and robust counter units with wrap around graphics. Extremely easy to assemble thanks to our unique FASTclamp connectors.

Bags included

Top and base shelves can be equipped with LED downlight strips.

FLEXIFRAME ®

Flexiframe is a modular framing system and a unique invention from Mark Bric which has been on the market now for more than 35 years. As the brand name indicates, by using different sizes, colours, shapes and combination of frames, the display possibilities are endless - from a single frame to a complete exhibition stand. A truly economically priced display product!

COMPLETE TRADE SHOW STANDS

MORE SHOW FOR LESS MONEY

Maybe you do not want to spend a fortune on your next exhibition or public presentation. What you need is just an easy-to-use and attractive system to do the job. With Flexiframe's amazing range of sizes, shapes, colours and frame-combinations the system can definitely save you money. Flexiframe's exhibition stands are certainly the right choice.
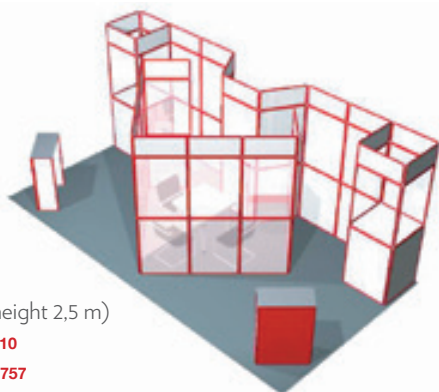

LINKUP™ OR SHOWUP™

Choose between the LinkUp and ShowUp models for building Flexiframe exhibition stands and backwalls. LinkUp uses metal connectors to join the frames, ShowUp uses poles and clips.

THE "MORE-EXPO" CONCEPT

The "more expo" business concept is to offer economy display products with the best possible quality. Recognizing the growing demand for low price alternatives, we have our own organisation in mainland China where we are constantly scanning and evaluating the Asian market to find the most competitive and up-to-date display products manufactured today. The products chosen will then be further improved and modified to be in line with the "more-expo" requirements for function, design and quality. During the production process of these products our quality auditors constantly visit the factories to make sure that these products meet or exceed our quality expectations. We also assure that environmental issues are considered and that the products are produced under acceptable working conditions as well. By purchasing these products in very large quantities, working directly with the factories (no middle-men) and a highly cost efficient distribution system, we can guarantee you the best possible price.
